WHATEVER YOUR TASTE OR STYLE, TAMKO HAS YOU COVERED.

With two distinct color palettes to choose from,
TAMKO has just the right color to beautify your home.

AMERICA'S NATURAL COLORS

America's Natural Colors bring the vibrant tones of the American landscape to your home. If you want your roof to make a bold and beautiful visual statement, choose from America's Natural Colors.

BOLD AND BEAUTIFUL

Black Walnut

CLASSIC COLORS

For those who prefer a softer, more even-toned look for their roof, choose one of TAMKO's Classic Colors featuring the subtle, sophisticated color blends that have long made TAMKO an industry favorite.

SUBTLE AND SOPHISTICATED

Rustic Black

The shingle images above show the difference between America's Natural Colors and Classic Colors. Black Walnut and Rustic Black are both "black" shingles. Look closely and you can see Black Walnut includes vibrant splashes of color that will draw the eye of the roof.

SHINGLE COLOR SELECTION TIPS

For more information on shingle color selection tips and available colors by zip code, visit tamko.com

View An Actual Roof Installation. Shingles may look different installed on a roof compared to viewing only one shingle. Also, shingle colors can appear differently during different times of day, in different amounts of sunlight (full, partial, etc.).

View Actual Shingles. Viewing actual shingles is the only way to see all the nuances in color that will be represented on your roof once the project is complete.

Start your Color Search with Brochures and Visualization Programs. The printed colors you see in any brochure or digital visualization program are only as accurate as current printing and digital technology allows.

Check Your Shingles Before Installation. TAMKO is not responsible for color claims where the wrong color is installed on a roof. It is better to be safe and perform a final in-person check of the shingles to confirm product and color before they are installed.
